To whom it may concern: Without Microsoft products, I would be unable to have my business and help my daughter with school. Microsoft made products that work for the private person and are affordable. The case against this innovative company is ridiculous and is hurting our economy. I wish to express my disappointment in the governments continual pursuit of Microsoft. Please put an end to the legal action. Microsoft has been a model in creating technology that is affordable to so many people.

Thanks for providing a means for me to express my opinion
